

Key Features

- A shock-proof steel frame, sturdy aluminum housing, and strong synthetic hopper make the KS27M great for use in any environment
- Compact design fits through any standard door and can be used inside and outside
- Main broom and side brush can be adjusted for optimum adaptation to floor conditions and type of dirt

Markets

- Commercial
- Institutional
- Healthcare
- Hospitality
- Retail

General Overview

- The KS27M is an ideal replacement for manual sweeping
- Picks up dirt quickly without leaving dust behind
- Lightweight and convenient, yet virtually indestructible
- Great for workshops, outdoor areas, paths, machine shops, stockrooms, parks, small yards, parking areas and loading ramps
- Goes where large sweepers cannot

Productivity

- The KS27M sweeps up to 24,757 sq. ft. per hour
- Works up to ten times faster than manual sweeping with a dustpan and brush

Ease of Use

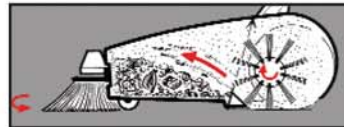

- Stairs and curbs can be climbed easily due to the large rear wheels.
- Optimum position of the handle allows the operator to use the position that is most comfortable as it can be easily switched around
- Dirt Hopper can be removed and replaced easily utilizing the handle

Effortless

Compact

The side broom sweeps dirt out of corners, directly into the path of the wide main broom and then into the large dirt hopper.

Specifications:

Sweeping width:	
with side brush	26 in (670mm)
without side brush	19 in (480mm)

Coverage:	
area per hr	24,757sq ft (2,300sq m)

Dimensions with side brush:	
width	31 in (790mm)
length	52 in (1330mm)
height (with handle)	35 in (900mm)
