

Key Features

- Powerful 1000 - 1150 watt vacuum motor and 150 watt brush motor
- HEPA 5 stage filtration for clean exhaust air and improved indoor air quality
- Switch between the high power or extra quiet mode depending on the noise sensitivity of the environment
- Quiet operation at 68 dB and 62 dB at extra quiet mode
- Poly V-belt is extremely durable and will shut off if the brush is jammed in order to prevent any damage
- Hose inlet is removable for easy clean out
- Full bag indicator light
- Vacuum cover will not shut unless the bag is attached correctly in order to protect the vacuum
- Cord strain relief for longer life
- Flexible nylon housing is virtually indestructible
- On-board tool kit included
- Pro Plus models come standard with back wheels kit, upright release foot pedal and advanced electronics

General Overview

- 14" and 17" Dual Motor Upright Vacuums
- Models include V14 Pro, V14 Pro Plus and V17 Pro Plus
- Lightweight and extremely maneuverable
- Extremely durable and sustainable with features such as cord strain relief, virtually indestructible composite materials on heavy wear parts, floating head, and automatic belt shut off

Productivity

- Large vacuum head width allows for more efficient vacuuming
- 1000 - 1150 watt vacuum motor deep cleans on the first pass
- Telescoping wand, 4:1 expandable hose and on-board tools allow for quick change to edging, upholstery and high cleaning
- Quick release cord wrap

Markets

- Hospitality
- Building Service Contractors
- Institutional
- Airports
- Industrial
- Retail
- Healthcare

Ease of Use

- Floating head means no adjustments necessary
- Lightweight at 15 lbs. with a ergonomic handle
- On-board tools, expandable hose and telescopic wand makes the right tool available at all times
- HEPA filter has easy access and easy to change for constant clean air

Green Features

- HEPA filter for indoor air quality
- Sustainable and durable construction and parts
- Easy to operate
